

✓ **Creating Careers in Construction**

- We employ construction apprentices (typically aged 16-21 years)
- Most of our apprentices work on site with main contractors / subcontractors
- They build impressive CVs and experience through a series of host work placements

✓ **Support and Guidance**

- Our apprentices stay local, have shorter travel times and can usually live at home
- We arrange college placements, PPE, health & safety training, and more
- Our Early Careers Manager oversees their progress to complete with us
- Each of our apprentices has a pastoral Mentor for ongoing support
- Our expert team have DBS, L2/3 Safeguarding, Prevent, & Mental Health First Aid

✓ **Talent Pool**

- Our apprentices include T-level / BTEC graduates, college learners and school-leavers
- They are on managed entry-level pathways into the industry –
 - Level 2 Trades – incl. Brick, Carpentry, Groundworks, Plastering, and Scaffolding
 - Level 4 Technicians – Quantity Surveying, Design, and Site Engineering (Civils)
 - Level 3 & 4 Management Trainees – Construction Support and Site Supervisor

✓ **Progression Opportunities**

- We give our apprentices the opportunity to complete their apprenticeship
- Some will get a professional qualification whilst with us, and letters after their name
- Many will go on to apply for a Trainee Programme with one of their host contractors
- And we actively seek to progress all onto full-time employment in the industry
