

# At Creative Youth Network we understand how overwhelming it can feel trying to make the best choices for your future.

Knowing what steps to take to get back into employment, education or training can be difficult. That's why we've created a range of FREE courses led by YOU, to help you develop the skills, confidence and knowledge to take the next step.

Our Youth Workers and Trainers will support you to find the right course or employment, work towards a qualification and learn new skills - whatever you need to find the best path towards a brighter future.

So if you're aged between 16 and 25 and struggling with education, employment or training, scan the QR code below to sign up to one of our FREE courses at Hanham Youth Club, the Kingswood Estate or our central Bristol base, The Station.

*"Youth work support helped me build my confidence and learn new skills after I dropped out of college. Weekly 1-2-1 sessions with my youth worker have allowed me to chat to someone about my worries and challenges, and now I've started an apprenticeship which I'm really enjoying." (Jesse, 21)*
